

## MARKET SEGMENTS

- ✦ Chemicals & Petrochemicals
- ✦ Mining & Materials
- ✦ Oil & Gas
- ✦ Power generation
- ✦ Paper & Pulp
- ✦ Life Science
- ✦ Steel & Metallurgy
- ✦ Water & Wastewater
- ✦ Datacenter
- ✦ Feed, Food & Beverage
- ✦ Infrastructure
- ✦ Cash systems
- ✦ Aerospace
- ✦ Non-destructive testing
- ✦ Manufacturing industry
- ✦ Fairground rides
- ✦ Automotive
- ✦ Solar / Semiconductor industry
- ✦ Construction materials industry

## COMPETENCES

- ✦ Consulting
- ✦ Basic engineering
- ✦ Detail engineering
- ✦ Software engineering
- ✦ MES
- ✦ Manufacturing
- ✦ Installation
- ✦ Commissioning
- ✦ Service, Training & Maintenance

Your partner of choice  
for advancing technologies

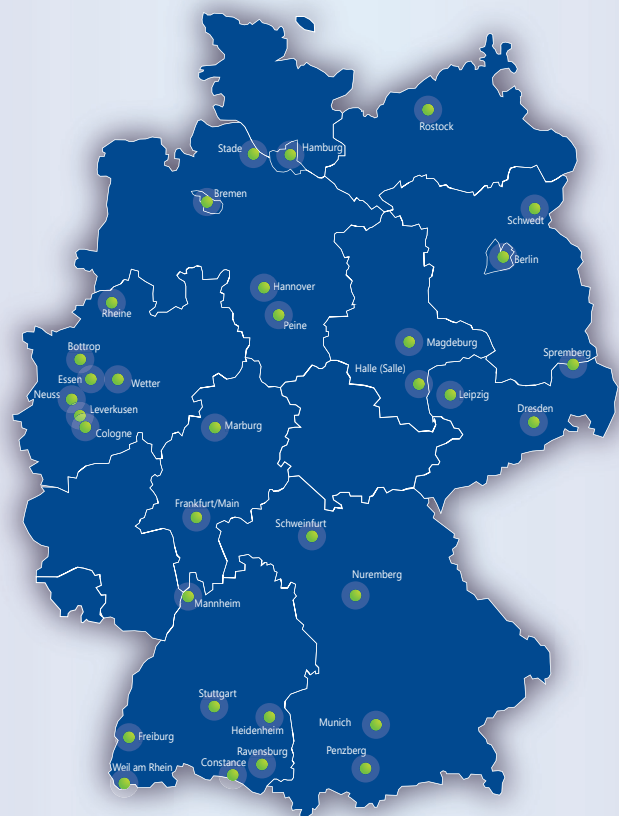

## OUR KNOW-HOW

- ✚ We develop solutions designed to **enhance** and **optimise** our customers' facilities and processes in the fields of automation and process control technology, electrical engineering, measurement, instrumentation and control systems through to power supply.
- ✚ Actemium is a **manufacturer-independent systems integrator**.
- ✚ Our teams cover the **entire life cycle** of facilities and systems, from engineering and implementation to maintenance and servicing.
- ✚ Under the heading of **Smart Industry Solutions**, we group together services, concepts and methods that will assist you in meeting future requirements in the area of automation technology.

## PREPARING THE FUTURE TOGETHER

- ✚ With over 50 locations across Germany we are **always in close proximity** to our customers and their facilities. This means we are always **available for you locally** and able to respond in a timely manner.
- ✚ Actemium Deutschland is part of the **international Actemium network** of the VINCI Energies Group. Actemium is present with 20,000 employees and 300 business units in 38 countries around the world.
- ✚ We support you with your projects **worldwide** on all continents.
- ✚ **Locally present – globally connected**, this is Actemium's strategic orientation.
