

MARKET SEGMENTS

- ✦ Chemicals & Petrochemicals
- ✦ Mining
- ✦ Oil & Gas
- ✦ Power Generation
- ✦ Paper & Pulp
- ✦ Life Science
- ✦ Steel & Metallurgy
- ✦ Food & Beverages
- ✦ Water & Wastewater
- ✦ Cash Systems
- ✦ Infrastructure
- ✦ Non-Destructive Testing
- ✦ Manufacturing Industry
- ✦ Automotive
- ✦ Amusement Rides
- ✦ Solar & Semiconductor Industry
- ✦ Construction Materials Industry

COMPETENCES

- ✦ Consulting
- ✦ Basic Engineering
- ✦ Detail Engineering
- ✦ Software Engineering
- ✦ MES
- ✦ Manufacturing
- ✦ Installation
- ✦ Power and Power Supply Systems
- ✦ Safety Engineering
- ✦ Commissioning
- ✦ Service, Training & Maintenance
- ✦ Energy Efficiency

↗ Actemium in the CIS (Commonwealth of Independent States)

OIL & GAS

Maximum reliability and availability for the oil and gas industry

MINING

Individual and manufacturer-independent electrical and I&C solutions for all mining facilities

MATERIAL

Systems integrator for the glass/ceramics as well as cement and construction materials industry

AUTOMOTIVE

Materials handling and assembly technology for the automotive industry

Actemium provides services ranging from consulting and engineering, via erection and startup, through to maintenance and servicing of **industrial and infrastructure facilities and processes**. Our network proposes targeted measures oriented towards establishing long-term customer relationships.

WE LEVERAGE OUR EXPERTISE IN DIFFERENT AREAS:

- ↗ Power engineering: high and low voltage
- ↗ Process control technology: automation, measurement, instrumentation and control systems, analytics, process IT, etc.
- ↗ Mechanical engineering, machinery, piping systems, welding, sheet metal assemblies, hydraulic equipment, etc.

We combine our acclaimed expertise with our segmentation approach and leveraging our network to develop efficient, creative and customised solutions.
